Put life back in your life.

Healthy U, or CDSMP (Chronic Disease Self-Management Program), is a workshop given two hours, once a week, for six weeks, REMOTELY via ZOOM or other platform.

People with different chronic conditions attend together. Workshops are conducted by two facilitators, one or both of whom have chronic conditions themselves, such as diabetes, arthritis, or heart conditions.

Self-Management topics covered include:

- 1) techniques to deal with problems such as frustration, fatigue, pain and depression,
- 2) suggestions on exercise for maintaining and improving strength, flexibility, and endurance,
- 3) stress and relaxation,
- 4) communicating effectively with family, friends, and health professionals,
- 5) nutrition, and,
- 6) how to evaluate new treatments.

Diabetes Self-Management Program (DSMP) is facilitated the same way as CDSMP and covers the same subjects, but is specifically designed for people with Type 2 Diabetes or pre-Diabetes, and includes more specific information on managing diabetes.

Chronic Pain Self-Management (CPSMP) is facilitated the same way as CDSMP but also includes 26 gentle stretching exercises as part of the curriculum.
